ABOUT ARMENIA

Armenia (officially the Republic of Armenia) is a nation in the mountainous Caucasus region between Asia and Europe. Yerevan is the capital city, also the largest city and financial center.

Armenia is a developing country and ranks 75th on the Human Development Index (2022). Its economy is primarily based on industrial output and mineral extraction. While Armenia is geographically located in the South Caucasus, it is generally considered geopolitically European. Since Armenia aligns itself in many respects geopolitically with Europe, the country is a member of numerous European organizations.

100% literacy rate was reported in as early as 1960. In the communist era, Armenian education followed the standard Soviet model of complete state control (from Moscow) of curriculum and teaching methods and close integration of education activities with other aspects of society, such as politics, culture, and the economy.

Armenia is the first country in the world to adopt Christianity as a state religion in 301 A.D. Christianity has played an immensely important role in the shaping of the Armenian people for over 1,700 years. Religion has been an essential part of Armenian identity and has reshaped the course of history.

ABOUT GYUMRI

Gyumri is the second largest city in Armenia and the capital of the Shirak Province in the northwestern part of the country. Being one of the most ancient settlements in Armenia with the history of 3000 years, Gyumri is a significant location to visit and admire. Gyumri has a large number of educational institutions, following the capital Yerevan in the number of educational institutions. It is considered the cultural and educational center of northern Armenia.

CITY CONNECTIVITY

Gyumri is served by the international Shirak Airport, about 5 kilometres (3.1 miles) to the southeast of the city center. It was inaugurated in 1961 and is the second largest airport in Armenia. The railway junction of Gyumri is the oldest and the largest one in Armenia. Public transport is dominated by the private sector in Gyumri. Public transit is mainly served by public vans, locally-known as marshrutka. Gyumri Taxi System is also well developed.

CLIMATE IN GYUMRI

- Gyumri has a humid subtropical climate with hot summers and relatively cold winters.
- The city enjoys relatively mild temperatures in spring and autumn, ideal for outdoor exploration.
- Gyumri receives moderate rainfall throughout the year, with slightly drier conditions in summer.
- Occasional snowfall occurs in winter, creating picturesque scenes in the city scape.
- Compared to many parts of India, Gyumri generally has cooler summers and colder winters, with less extreme temperature variations.

ARMENIA RELATIONS WITH INDIA

India and Armenia have strong cultural ties. Armenian culture has been influenced by Indian culture, and vice versa. Both countries have been promoting cultural exchanges and interactions. In 2018, Armenia hosted a week-long Indian cultural festival that featured Indian music, dance, and cuisine.

Similarly, Armenian cultural events in India have been held to promote Armenian music, dance, and art. In addition to promoting their shared cultural heritage, India and Armenia have also been working to strengthen the ties in the education sector. A number of Indian universities and Armenian universities have recently signed agreements to advance academic partnerships and student exchange.

Additionally, the two nations have been promoting language learning, with universities in India offering Armenian language courses and vice versa. Cultural and educational cooperation contributes to cultivating goodwill in both countries by encouraging people-to-people contact.

A PRIME DESTINATION FOR EDUCATION & LIVING

Global Renowned Degrees

The medical universities in Armenia are accredited by the WHO, WDOMS, FAIMER, ECFMG, and the medical councils of leading countries such as the United States, the United Kingdom, Australia, India, Canada, etc.

Affordable Education

Armenia has several medical universities recognized by leading bodies like WDOMS and NMC (MCI). The overall cost of studying MBBS in Armenia is considerably lower than that of private medical universities in India.

Resourceful Universities

The medical universities in Armenia are extremely resourceful in order to cater to the learning needs and compatibility of the students.

Overall Cost

MBBS abroad in Armenia is the best option for those seeking to save on medical expenses. In addition to the lower tuition fee, the cost of living in the country is also quite reasonable.

English Medium Education

The medical universities in Armenia follow a complete English curriculum, so the students do not need to worry about learning a new language for their MBBS.

Technology-Enhanced Learning

The medical universities in Armenia are among the most technologically advanced. This allows students to remain updated and relevant in their studies. Armenian universities adhere to European and American accreditation standards.

Armenia boasts one of the fastest-growing economies globally. Armenian universities adhere to European and American accreditation standards. Georgia is renowned for its high quality educational systems, comparable to the best in Europe and America.

Good exposure for the students
NMC(MCI) approved universities.

ALL TOP REASONS

WHY ARMENIA BECAME A MAGNET FOR INDIAN MEDICAL STUDENTS

Global Renowned Degrees

The medical universities in Armenia are accredited by the WHO, WDOMS, FAIMER, ECFMG, and the medical councils of leading countries such as the United States, the United Kingdom, Australia, India, Canada, etc.

Affordable Education

Armenia has several medical universities recognized by leading bodies like WDOMS and NMC (MCI). The overall cost of studying MBBS in Armenia is considerably lower than that of private medical universities in India.

Resourceful Universities

The medical universities in Armenia are extremely resourceful in order to cater to the learning needs and compatibility of the students.

Overall Cost

MBBS abroad in Armenia is the best option for those seeking to save on medical expenses. In addition to the lower tuition fee, the cost of living in the country is also quite reasonable.

English Medium Education

The medical universities in Armenia follow a complete English curriculum, so the students do not need to worry about learning a new language for their MBBS.

Technology-Enhanced Learning

The medical universities in Armenia are among the most technologically advanced. This allows students to remain updated and relevant in their studies

The low tuition fee in the medical universities of Armenia is the chief reason for attracting thousands of students from around the world. Students prefer MBBS in Armenia when going for the option of MBBS in Abroad due to the facilities they get in the top government medical universities of Armenia. It can be an extremely wise decision for a student to study MBBS in Armenia and fulfill his/her dream of becoming a doctor. The adoption of English language as the medium of instruction is the other main reason why students prefer Medicine in Armenia. Out of the foreign students who visit Armenia for their medical studies, Indian students hold quite a high proportion.

FMGE

SCREENING

FMGE: Medical Council of India Screening Test

The FMGE, conducted by the NBE in India, evaluates foreign medical graduates for licensure.

Requirement for Foreign Medical Graduates in India

Indian citizens with medical degrees from foreign colleges must pass this test to practice medicine in India.

MCI Screening Test

Implemented in 2002, the MCI screening test serves as a qualification exam for Indian medical graduates from countries outside India, including former Soviet Union, Eastern European countries, China, Nepal, Philippines, and Caribbean countries.

Listing in World Directory of Medical Schools

Medical schools must be listed in the World Directory of Medical Schools (formerly WHO international directory) to meet this criterion.

Post-Screening Test Registration

Candidates passing the Screening Test can apply for provisional or permanent registration with the National Medical Commission of India or any Indian State Medical Council.

Compulsory Screening Test

As we all knew that Indian Government has made the screening test compulsory for foreign medical students compulsory.

FMGE Coaching

We also provide FMGE Coaching online and physical class at Gyumri Armenia with the most experienced Faculty.

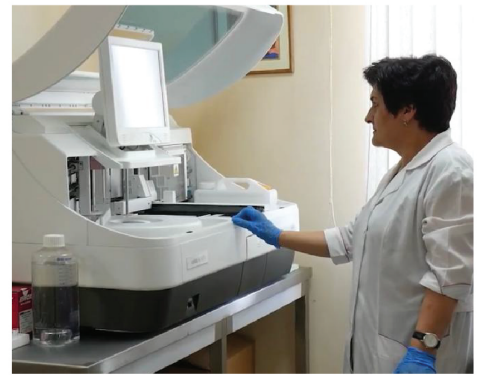

SIMULATION

LAB

The Simulation Lab at Progress Medical University in Armenia is a cutting-edge facility for medical and dental students to hone their clinical skills. Equipped with advanced simulators replicating real-life scenarios, the lab offers a hands-on learning experience crucial for their future careers.

Medical students practice procedures like intubation and suturing under experienced instructors' guidance, using simulators mimicking human anatomy. Dental students perform procedures such as filling cavities and root canals on realistic dental mannequins, preparing them for actual practice.

This lab is pivotal in preparing students, helping them develop clinical skills, decision-making abilities, and confidence in patient care. By offering a safe, controlled environment, the Simulation Lab ensures students are well-equipped for their professions.

PMU'S OWN HOSPITAL

Progress Medical University Super Speciality Hospital in Gyumri Armenia stands out as a beacon of medical excellence, offering a wide array of advanced healthcare services and demonstrating a commitment to exceptional patient care. Renowned for its state-of-the-art facilities and cutting-edge technology, the hospital provides specialized treatments in areas such as cardiology, neurology, oncology, and orthopedics, among others.

Allowing medical students from the university to practice and learn within its walls. This partnership provides students with invaluable hands-on experience and exposure to real-world medical scenarios, enriching their educational journey. Moreover, PMU students have the opportunity to learn from and work alongside medical experts in over 15+ other renowned hospitals, further enhancing their skills and knowledge. Progress Medical University Super Speciality Hospital's collaboration with PMU not only benefits its patients but also contributes significantly to the development of future medical professionals.

CAMPUS LIFE

Progress Medical University is one of the popular choices for the Indian students for their MBBS in Armenia. As one of a major advantage, the university provides the FMGE coaching classes for all their Indian students so that they can perform their absolute best at the exam and can pursue their goal of practicing medicine in India.

HOSTEL

Progress University arranges housing facility for all the international students in its dormitories, for their comfort. The University accommodates rooms are on single, double or triple sharing basis, to suit students' choice and affordability. These rooms are equipped with beds, desks, chairs, lamps, bookshelves. Shared-kitchen, toilet, shower-room are available in rooms.

University provides full security to students living on campus. 24-hour CCTV coverage, electronic access to hostel and other measures are available for safety & security of the students.

BUDGET RADAR ON GYUMRI

THE GYUMRI CITY, ARMENIA

Yet, it is the most important thing to know "Is living in Gyumri Armenia affordable for all?" Well, this is a "Million-Dollar Question" of parents and students.

Living a quality life in Armenia is sensible. It is not that cheap or costly. It depends on how smartly one manages a decent and comfortable life. However, while in the country, you may maximize and enjoy the wide-range of amazingly

interesting places starting from countryside markets and mini- shops to the most expensive hotels with its luxurious styles.

The currency of Armenia is the Armenian Dram. The good thing about the Armenian Dram is that it equals to 1 AMD = Rs 0.21. This comes as good news for budget travellers, tourists, and of-course for the students and residents too.

RESTAURANTS

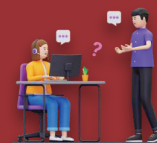

You can find the flavours of home across the state at restaurants and grocery stores specializing in food from Africa, Asia, Europe, India, Latin America, the Mediterranean, and many more.

Everyone agrees that food is cheap in Armenia. Most of the good restaurants offer delicious meals at affordable prices, whether if it is street food or at fancy restaurants. Not to mention, readily available and affordable accommodation/motels and hotels for all clients.

MONTHLY EXPENSES

According to Armenian Government the Official average monthly expense in Gyumri is estimated at \$100 - \$150 US Dollars (Approx 8200 - 12300 INR) including Accommodation & Food. This is another proof that living in Gyumri, Armenia is affordable for Students, locals and visitors.

HOSPITALITY

Among many good things, Armenia is a socially tolerant country. Armenians are predominantly Christians who have hospitable culture. Armenians are welcoming to people of different nationality, religions, race, ethnicity and social status. This is why Armenia remains a top tourists' destination and a favourite destination of International students.

FOOD & SNACKS

Here is a rough estimate of local and popular food stuffs in Gyumri

RICE
(1KG)

₼ 400 AMD
₹ 85.00 INR

BREAD
(Loaf of Fresh)

₼ 100 AMD
₹ 21.00 INR

OUR STUDENTS

Say It All!

Anu Kumari Singh

At the Progress Medical University, i really feel like the experience and learning is tailored to me. Faculty and administration are constantly working directly with us in order to make medical school the best experience it can be. I am constantly impressed by how earnestly our feedback is incorporated into day to day student life.

Prasad Bhalerao

One of the things I love most about PMU is the emphasis on different learning styles beyond the classroom: from team-based learning activities with our classmates to applying what we are learning at the Clinical Skills Education and Technology Center. By applying our knowledge base in a simulated patient interaction or to solve clinical case studies, we can hone our skills and really solidify our understanding of medicine.

Rashmitha Dsouza

The large amount of interaction between students and professors during my first two years at PMU was unexpected but so beneficial. Students have open communication with lecturers and course directors and there are a variety of ways that students can influence and improve their education. Surveys allow students to provide honest and constructive feedback and student elected curriculum chairs provide another route of communication between course directors and students.

Aditya suresh Naravi

Student life in Progress Medical University is full of joy and thrills. There are a lot of safety measures taken by country, i am really blessed to study in such a wonderful atmosphere.
